## CRIO FELLOWSHIP IN FULL STACK

### QTripStatic (Link: https://gp-qtripg.netlify.app/)
July 2022 - August 2022
QTrip is a travel website aimed at travelers looking for a multitude of adventures in different cities.
During the course of this project,
· Created 3 different web pages from Wireframe layout using HTML and CSS
· Utilized Bootstrap extensively for responsive design
· Deployed the website to Netlify.

### QTripDynamic (Link: https://qtrip-geethesh.netlify.app/)
August 2022 - September 2022
QTrip is a travel website aimed at travelers looking for a multitude of adventures in different cities.
During the course of this project,
· Created web pages using HTML and CSS and made them dynamic using JavaScript
· Improved UX with multi-select filters, image carousels
· Utilized localStorage to persist user preferences at client-side

### XBoard (Link: https://the-awesome-geethesh2610-site.netlify.app/)
September 2022 - October 2022
XBoard is a News Feed website that will feature the latest news for select topics, from Flipboard.
During the course of this project,
· Built XBoard using HTML, CSS, Bootstrap and JavaScript from scratch
· Used Accordions and Image Carousel to improve UI
· Fetched news content from flipboard's RSS feed using REST API

### QKart Frontend ( Link : https://dashing-sawine-10734b.netlify.app/)
October 2022- November 2022
QKart is an e-commerce application offering a variety of products for customers to choose from.
During the course of this project,
· Implemented the core logic for authentication, shopping cart and checkout
· Improved UI by adding responsive design elements for uniform experience across different devices
· Utilized REST APIs to dynamically load and render data served by the backend server
